

A Day in the Life

Balavikasita Sadan Orphanage

January 2023

A child that you sponsor lives at Balavikasita so we wanted to share these photos with you.

Uttam and Shobha are the administrators that you can see in the photos above. They had to expand the orphanage into two separate dorms because there were so many children who needed their loving care.

*The children celebrated Diwali in November.
The festival of Diwali symbolizes the victory of light
over darkness, and right over wrong.*

*It's time for playing games like
musical chairs.*

Nutrition and Life Skills

Fun fact: Forks and spoons are rarely used in India. The children all eat with their right hands.

Hurry up and take the photo so we can eat!

Sewing and handiwork are lifelong skills and these girls are having fun while they're at it.

Looks like Uttam is doing some serious counseling with the older boys.

When it comes to studying, there is a lot of teamwork!

While freshening up the home, Uttam teaches the boys life skills such as painting.

Field Trips and Birthdays

Did you ever think your sponsored child would get to go to an arcade on a field trip?

These two girls were victorious at the arcade and won several stuffed animal prizes.

Nothing puts a smile on a girl's face like a new dress.

**What a good life you have
helped provide these beautiful
children!**

Birthday celebrations are a crowd favorite at Balavikasita. Who doesn't love cake?

Moments to Celebrate

Mango season is in full swing! Mmm, mmm good!

Joining in on the kite flying festival.

Students display their creations after their art class on symmetry.

Pillow delivery! Everyone will sleep well tonight.

Ice cream is a favorite at Balavikasita. Hopefully they can eat it all before it melts!
