

## UKRAINE REFUGEE UPDATE

The photos pictured show children from two Internally Displaced Persons (IDP) camps in Ukraine. Four families live in the first camp with children who have special medical needs. They live in a wing of a regional hospital which was converted by volunteers. A second group of 35 children and their four teachers who evacuated from Eastern Ukraine are staying in a boarding house with three rooms.

Thanks to your generous donations, we were able to send \$13,000 which paid for tablets for learning, chargers, diapers, a vacuum cleaner, washing machine, cleaning supplies, hygiene products, cooking equipment, and medicine. They have additional needs for medical supplies and ongoing food support.

**Thank you for helping improve the lives of all children and protecting them from war. We can do so much good when we work together.**
