

# SO MUCH TO CELEBRATE

## **World's Children Annual Report**

# LIVES CHANGED

As we look back on this last year, it is with awe and amazement. Light where there was only darkness, power where children had none, safe kitchens for cooking, warm beds to sleep in and even protection from mischievous monkeys!

Friends, you have given so much and it has literally changed the lives of children around the world. In many cases, your giving could be what saved a child's life or kept them out of being trafficked.

We are so honored to be in this story with you and are so proud of this little World's Children community that gives in such big ways!

Thank you for partnering with us,

Shannon Miller and the World's  
Children Team

# SO MUCH HOPE

## Our International Partners

The true heroes in this story are our International Partners who are giving their whole lives to make the world of children better. It is our honor to work together with you to support them in every way that we can!

# PROJECTS FUNDED

## Annual Campaign

### India

Bethel Children's Home - Painting the outside of the boys and girls home. Fixing walls, windows and doors.

Lucile Colony - Monkeys were destroying their solar tubes. We funded a monkey grill over the tubes and replacement tubes.

Nambikkai Illam - After covid the public transportation had become unreliable. We funded a two-wheeler to help administrators to deliver groceries and get children to medical appointments.

Happy Home- The children were sleeping on the floor. We funded 40 cots for the girls dormitory.

Balavikasitha - Due to power scarcity, they were studying by candlelight. We funded 6 generators and new kitchen appliances. We also helped them paint the interior and exterior of their buildings.

Athipet Tribal Girls Home - The cupboards where they store their personal items needed doors to keep insects and snakes out of their things. We funded doors for all of their cupboards.

Anna Vitiello - We funded new cots, mattresses and a refrigerator.

Pandravedu - Security has become an issue at this home. We funded CCTV cameras and a projector

# MORE PROJECTS FUNDED

## **Africa**

Ethiopia - Bridge of Hope desperately needed new furniture. The current furniture and kitchen items have been used by 45 children for the last 15 years. We funded new furniture and kitchen supplies.

Kenya - Acts of Mercy needed toilets for clean hygiene for the children. We supplied funds for 3 double pit latrines and 3 more latrines for children with special needs. We also funded repair of their concrete water tank as well as a borewell and reverse osmosis filtration system so they could have safe drinking water.

Zambia - Mab's Haven needed bunk beds for the girls and a dining room table. We also funded a computer, printer and router so that they could communicate and do schoolwork.

## **Mexico**

Mulege - Casa Hogar was struggling to have enough funds to feed the children. We provided monthly food security for groceries. We also funded septic tank repairs.

## **Ukraine**

Uzhhorod - Internally Displaced Persons Aid
